**Cc:** Heimdal, Monica  
**Subject:** Proposed Restoration Plan for Wetland Impacts at Williston Village RV Park

**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

Ms. Kato and Ms. Heimdal,

Yesterday afternoon, I sent an email to you both with an attachment that contained a proposed restoration plan in the referenced matter. Carlson McCain, Inc. prepared the plan. I sent it to you as a .pdf attachment, but the file was rather large in size. Often, clients and agencies have difficulty with large attachments and email servers will frequently block them. I am writing to verify that you received the plan. If you did not receive this email and attached plan from me yesterday, please let me know so that I can make alternative arrangements to get the plan to you as quickly as possible.

Thanks,  
JB

**Subject:** RE: BIP 40

Ms. Kato and Ms. Heimdal,

Attached to this email, please find a statement of qualifications for Carlson McCain, Inc. BIP 40 is proposing to engage Carlson McCain to prepare the restoration plan which will be required in this matter.

Please contact me if you have any questions about the attached. If BIP 40's proposed engagement of Carlson McCain, Inc. to prepare this plan meets with your approval, please notify me so that we may formalize the engagement and Carlson McCain may begin drafting the plan as soon as possible.

Thanks,  
JB

**Subject:** BIP 40

Mr. Brunini –

As I mentioned in my voice message, I am the attorney who has been assigned to handle the BIP 40 matter. I'm sorry we weren't able to connect via telephone, but I wanted to convey some information to you without further delay. I have been given a copy of your August 21 letter, addressed to Ms. Heimdal. Please note that we appreciate your client's desire to expeditiously commence restoration of the site. In order to make sure that it is completed without complication, a restoration plan should be drafted by your environmental consultant and submitted to Ms. Heimdal for review and approval. Once everyone is in agreement as to how the restoration should be conducted, the project may commence. Please advise your client that the work should not start until the plan is approved, and that we will work with your client to expedite this matter.

As a first step, please have your client submit the name and qualifications of the environmental consultant to Ms. Heimdal, who will notify your client if there are any objections to the consultant. The consultant should then prepare the restoration plan according to EPA guidelines, which I have attached here. If the consultant or your client has questions about the development of the plan, please refer them to Ms. Heimdal.

In the meantime, we will be preparing a draft Administrative Order on Consent for your review. This document will formalize our agreement regarding restoration of the site. If you have any questions regarding our agreement or agency procedures, please feel free to call me. Any questions from your client of a technical nature should be directed to Ms. Heimdal.

Thank you for your cooperation. I look forward to meeting you.
